

HITP-202 CODING CLASSIFICATION SYSTEMS I 3 CREDITS

SYLLABUS

CATALOG DESCRIPTION

This course provides a study of nomenclatures and classification systems with emphasis on the most recent revisions of ICD-10-CM, and ICD-10-PCS and the application of coding guidelines used to accurately assign codes from these classification systems in different healthcare settings. Students will study ICD-10-CM, and ICD-10-PCS coding conventions and principles.

Prerequisites: Faculty Permission Required

Semester Offered: Fall & Summer

COMMON STUDENT LEARNING OUTCOMES

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

COURSE LEARNING OUTCOMES

Upon successful completion of the course, the student will be able to...(numerical references are to AHIMA 2014 Curriculum Competencies for Health Information Management (HIM) Education at the Associate Degree Level)

1. Apply the skills needed to perform coding and coding-related functions within the health information management department of a health care facility. Learn how to code in ICD-10-CM, and ICD-10-PCS classification utilizing the coding manuals. I.A.1
2. Evaluate the accuracy of diagnostic and procedural coding. I.A.2
3. Demonstrate the knowledge to validate coding accuracy using clinical information found in the health record. I.A.2
4. Apply diagnosis and procedure codes using ICD-10-CM, and ICD-10-PCS classification systems according to current ICD-10-CM and ICD-10-PCS coding guidelines. I.A.1
5. Evaluate facility-wide adherence to compliance and regulatory requirements. I.B.1
