

DISL-210 DIESEL ENGINE OVERHAUL 6 CREDITS

SYLLABUS

CATALOG DESCRIPTION

Study of the diesel fueled internal combustion engine and how mechanical power is generated. Students will perform a complete disassembly and reassembly of a diesel engine as well as perform tune-up, failure diagnosis and analysis, and maintenance. Safety will be strictly enforced. A grade of "C" or better must be earned to receive credit for this course.

Prerequisites: DISL 110 and DISL 115

Semester Offered: Fall

COMMON STUDENT LEARNING OUTCOMES

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

COURSE LEARNING OUTCOMES

Upon successful completion of the course, the student will be able to...

1. To provide the student with the physics of operation, techniques, and procedures to correctly diagnose and overhaul a diesel engine.
