

COSD-219 HAIR DESIGN LAB II 1 CREDIT

SYLLABUS

CATALOG DESCRIPTION

Students have the opportunity to demonstrate intermediate techniques in a classroom. The topics covered are sterilization, shampooing, haircutting, hairstyling, perms, and hair color.

Prerequisites: COSD-119

Semester Offered: All

COMMON STUDENT LEARNING OUTCOMES

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

COURSE LEARNING OUTCOMES

Upon successful completion of the course, the student will be able to...

1. Effectively demonstrate two-way communication.
2. Demonstrate basic haircuts and styling techniques.

3. Perform proper draping, shampooing and scalp massage services.
4. Explain salon ownership types, structure, operations and requirements for the practice of good business.
5. Demonstrate techniques used to recommend retail product sales to client.
6. Follow the precautions necessary for various classifications of chemicals when working with professional products and cosmetics.
7. Care for the hair by doing an evaluation for common hair disorders, including hair loss.
8. Correct unbalanced proportions when creating a design for the human body and face.
9. Exhibit appropriate communication skills during the client consultation.
10. Determine the design elements and principles used to compose designs.
11. Perform basic hair coloring techniques.
12. Demonstrate thermal styling techniques, infection control and safety.
