

EMSP-271 PARAMEDIC CLINICAL II 2 CREDITS

SYLLABUS

CATALOG DESCRIPTION

Serves as the first clinical component of the paramedic program. Provides paramedic students an opportunity to apply their knowledge in real patient care situations. Clinical rotations include time in hospital departments such as emergency, intensive care, pediatrics, surgery, obstetrics, and respiratory and also at other sites including urgent cares, physician clinics, and daycare centers. Course is a minimum of 150 hours but may require additional hours to complete required skills. Taken in combination with theory and lab courses.

Prerequisites: Acceptance into the Paramedic Program

Semester Offered: Spring, Summer

COMMON STUDENT LEARNING OUTCOMES

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

COURSE LEARNING OUTCOMES

Upon successful completion of the course, the student will be able to...

Learning Objectives:

The Program prepares its graduates to:

- Demonstrate Individual Professional Behaviors Consistent with Employer and Community expectations of an Entry-Level Paramedic.
 - Demonstrate Technical Proficiency in All of the skills identified for the role of an Entry-Level Paramedic.
-
- Comprehend, Apply, And Evaluate Information Relative to the expected duties, roles and responsibilities of the Entry-Level Paramedic.

Expected Outcomes:

Students in the program will demonstrate:

1. Cognitive knowledge level expected of an entry-level paramedic and as necessary to function in a healthcare setting.
2. General medical knowledge expected of an entry-level paramedic and as necessary to function in a healthcare setting.
3. The ability to collect data from charts and patients and appropriately interpret that data.
4. The ability to thoroughly assess a patient utilizing various diagnostic tools and procedures.
5. The ability to recommend appropriate therapeutic procedures and make sound patient care judgments as expected of an entry-level paramedic.
6. The ability to perform a broad range of clinical skills, procedures and equipment.
7. The ability to communicate and interact effectively with non-clinical and clinical persons in various healthcare and scene environments.
8. The ability to present oneself in an ethical and professional manner.
9. The ability to manage time efficiently while functioning in a healthcare setting.
10. The ability to use critical thinking skills to assess and treat patients in emergency settings.
