## Participation and Attendance Policy

As this course is administered completely online, the student is not required to attend scheduled on campus meetings. The student is expected to regularly login and participate in their course each week throughout the semester. Participation and regular attendance is verified through completion of online discussions, assignments, exams, quizzes, and by regularly accessing lessons and learning objects within each module. Pay attention to weekly due dates listed in the Course Schedule at the end of this Course Guide. Quizzes, assignments, and exams have specific due dates and are not open the entire semester. Students not attending and participating in the course may be dropped for non-attendance.

## Inclement Weather Information

Students will receive notification of class delays and cancellations due to inclement weather via the SJC SunsAlert and SJC student email. Face-to-face classes will not meet in person; however, students are advised to check with instructors about alternative meeting options, as some may choose to meet via zoom. Hybrid classes will meet as scheduled via zoom. For questions regarding your class delay or cancelation, please contact your instructor. If you have not already done so, [Sign up for SJC SunsAlert](#) to stay up to date on weather alerts.

## Other Classroom Policies and Expectations

Please see the Syllabus and your course for specific information regarding class policies the semester you are enrolled in the course.

## Canvas Participation and Expectations

The student is expected to regularly login and participate in their course each week throughout the semester. Participation and regular attendance is verified through completion of online discussions, assignments, exams, quizzes, and by regularly accessing lessons and learning objects within each module.

## Instructor Response Times & Regular Interaction Expectations

Unless otherwise noted, students may expect to have their assignments graded and grades posted within 5 working days after the assignment due date. Delays may occur during periods of heavy grading such as during midterms and finals. If there is going to be a delay in posting grades your instructor will email or post an announcement on your course site.

Please see the Course home page of your course in Canvas the semester you are enrolled in the course for instructor contact information and office hours.

## Course Time Commitment

The average student should expect to spend approximately 6-8 hours each week completing reading assignments and components of each weekly module. Additional time may be required for completion of clinical tasks depending on the method of task completion chosen by the student. Some weekly lessons/modules will require more study and research time than others. Use the weekly due date to stay on schedule throughout the semester and set a goal to complete all components of a module by the due date listed in your Course Schedule and the Canvas Module screen.

## Grading

## Key Dates to Remember

## **7. Drop for Non-Attendance and/or Non-Participation**

### **Class Attendance and Participation Expectation:**

Face-to-Face -- Students are expected to attend and participate in class regularly. Any student missing more than 10% of consecutive class time, (For example, in a regular 15-week class that meets twice a week, this equates to the student missing 3 consecutive classes) without consultation with the instructor may be considered as having abandoned the course.

On-line -- Students are expected to participate regularly and submit all course assignments, based on the course guide definition. A student who does not submit any assignments during a consecutive 10% of the course (1.5 weeks of a 15-week semester) without consulting the instructor, may be considered as having abandoned the course. Logging in does not meet the attendance standard.

Competency-Based Education Classes -- Students are expected to have regular and substantive interactions with their instructor and to actively work on course content. A student who has not submitted coursework, nor had substantive interactions with the instructor over a consecutive 10% of the term, without the instructor's prior approval, will be considered to have abandoned the competency progression. Last date of attendance will be recorded as the last date that coursework was submitted or that the student met with the instructor. For on-line learners, logging in does not meet the attendance standard.

### **Failure to Meet Class Participation Expectation:**

Students who fail to meet participation expectations will have their last date of attendance recorded. This date will be used to recalculate any financial aid received/veteran's benefits received, and the student may be required to repay the institution/government. If the student does not drop the course, an 'X' grade will be recorded. An 'X' grade impacts the grade point average the same as an 'F'.

## 8. Grading Policies

### **Incomplete: Incomplete Grade Assignment** ([Incomplete Grades Information](#))

The grade of I (Incomplete) is given for passing work that could not be completed during the semester because of circumstances beyond the student's control. Ordinarily, the assignment of an I is given by the course instructor at the time final grades are due.

In no case is an I grade to be used to avoid assignment of D or F grades for marginal or failing work or to require a student to enroll in the class the next semester because work was not completed on time. Circumstances warranting the issuance of an I grade must be beyond the student's control and must be documented on the appropriate form prior to approval.

I grades can be removed only during the subsequent 16 weeks from the end of term, or within the time limit set by the instructor. Removal of an I is accomplished by completing the work in a manner acceptable to the instructor. Re-enrollment in the course under the repeat option does not remove the prior grade of I. Students should not re-enroll for the course. An I not made up within 16 weeks or within the time limit set by the instructor will change to an F grade thereafter and cannot be changed by work completion.

## 9. Grade Appeals

The policy for grade appeals is in the Academic Catalog ([Grade Appeal Policy](#)).

## Student Handbook

The Student Handbook provides information on Student support, student organizations, and San Juan College policies.

[Student Handbook](#)

## Program Handbook

The SJC VTDLP Student handbook for students will be posted in the "Begin Your Course Here" module the semester you are enrolled in the VETT 235 course.

## Online Course Fee

Online Courses - San Juan College requires all online courses to include some form of assessment to demonstrate the mastery of course objectives. This could include exams, capstone projects, e-portfolios, presentations, final papers or other appropriate assessments. The use of a proctoring platform, plagiarism detection software or other method to ensure that assessments are completed by the enrolled student is required.

A course fee of \$5.00 is assessed for all online courses at San Juan College to cover the cost of the above services. Students who are required to take a proctored exam and choose to use a physical testing center outside the SJC Testing Center or SJC Disability Services will be responsible for the cost of using that center.
