

HLSC-111 BASIC HEALTH CARE SKILLS II 3 CREDITS

SYLLABUS

CATALOG DESCRIPTION

This course provides an overview of the health care system, team approach delivery, and the roles and functions of health care professionals. It addresses consumer health needs, trends and issues. Course recommended for students considering programs in Nursing, Dental Hygiene, Physical Therapy Assistant, and Health Information Technology. Minimum grade required: "C".

Prerequisites: None

Semester Offered: Fall, Spring, Summer

COMMON STUDENT LEARNING OUTCOMES

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

COURSE LEARNING OUTCOMES

Upon successful completion of the course, the student will be able to...

1. Understand the concepts of basic anatomy and physiology, human growth and development, cultural

diversity, geriatric care, nutrition, health documentation methods, and health care regulations, and how these apply to clinical practice.

2. Describe basic health consumer needs, and how the health care system may meet those needs.
3. Demonstrate knowledge of various health care regulations, and how they are applied to clinical practice.
