SYLLABUS

COURSE # AND TITLE: AUBO 244 Advanced Non-Structural Repair 1

 # OF CREDITS: 4.5

CATALOG DESCRIPTION:

This course will involve the students in all phases of minor non-structural collision damage repairs. This course will encompass sheet metal repair, advanced panel replacement and alignment.

Common Student Learning Outcomes

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in…

BROAD AND SPECIALIZED LEARNING
Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING
Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT
Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION
Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY
Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES
Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

GENERAL OBJECTIVES:

General objectives of the course are:

1. To provide the students with the necessary theory and practical application required to learn how to safely and efficiently use auto body repair tools and equipment to repair typical collision damage.

SPECIFIC OBJECTIVES/OUTCOMES:

At the conclusion of this course, the student will be able to:

1. Replace and align damage panels and trim.
2. Identify the different kinds of body damage and how to repair them.
3. Safely and efficiently utilize all auto body tools in their proper applications.
