

SAFE-134 Hazardous Energy Control

.5 CREDITS

SYLLABUS

CATALOG DESCRIPTION

This course teaches requirements for conducting proper Lockout/Tagout procedures to help a student to become an “authorized” employee. Course will focus on related definitions, OSHA regulatory requirements, recordkeeping, and training requirements.

Prerequisites: None

Semester Offered: ALL

Common Student Learning Outcomes

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

Course Learning Outcomes

Upon successful completion of the course, the student will be able to...

1. Utilize energy control procedures.
2. Apply Lockout/Tagout techniques.
3. Utilize methods of full employee protection.

4. Identify protective materials and energy isolation devices.
5. Define and recognize reasons for frequent inspections, training and communication.
