

COSD 119-HAIR DESIGN LAB I 4 CREDITS

SYLLABUS

Basic application of sterilization, shampooing, haircutting, hairstyling, perms, and hair color under the supervision of a licensed professional.

Prerequisites: None

Semester Offered: All

Common Student Learning Outcomes

Upon successful completion of San Juan College programs and degrees, the student will demonstrate competency in...

BROAD AND SPECIALIZED LEARNING

Students will actively and independently acquire, apply, and adapt skills and knowledge with an awareness of global contexts.

CRITICAL THINKING

Students will think analytically and creatively to explore ideas, make connections, draw conclusions and solve problems.

CULTURAL AND CIVIC ENGAGEMENT

Students will act purposefully, reflectively, and ethically in diverse and complex environments.

EFFECTIVE COMMUNICATION

Students will exchange ideas and information with clarity in multiple contexts.

INFORMATION LITERACY

Students will be able to recognize when information is needed and have the ability to locate, evaluate, and use it effectively.

INTEGRATING TECHNOLOGIES

Students will demonstrate fluency in the application and use of technologies in multiple contexts.

Student work from this class may be randomly selected and used anonymously for assessment of course, program, and/or institutional learning outcomes. For more information, please refer to the Dean of the appropriate School.

Course Learning Outcomes

Upon successful completion of the course, the student will be able to...

1. Demonstrate ergonomic posture steps to prevent injury while working.
2. Use appropriate nonverbal body language signs during client consultation.
3. Demonstrate properly use of voice and grammar with models.
4. Exhibit effective two-way communication with instructor and models.
5. Displays appropriate personality, attitude and habits in human relations.
6. Protect clients from bacteria and viruses.
7. Implement simple safety and first-aid applications for minor burns, cuts, choking, eye injury, and fainting.

8. Select appropriate products/tools associated with water, acids and alkalines.
9. Take the precautions necessary for various classifications of chemicals when working with professional products and cosmetics.
10. Care for the hair by doing an evaluation for common hair disorders, including hair loss.
11. Demonstrate proper draping, shampooing and scalp massage services.
12. Correct unbalanced proportions when creating a design for the human body and face.
13. Determine the design elements and principles used to compose designs.
14. Select appropriate haircutting tools, locate areas of the head, and use proper fundamental cutting techniques.
15. Implement basic hair coloring techniques.
16. Demonstrate thermal styling techniques, infection control and safety.
