b. Students will gain an understanding of human diversity as well as what we all have in common.

## 2) Critical Thinking

a. Through reflective thought, class projects, and class discussions, students will use the basic concepts of the 5 subfields of anthropology and apply them in different contexts.

b. Many areas of anthropology provide no right and wrong answers, and students will learn to evaluate concepts and draw conclusions based on their own reasoning.

## 3) Effective Communication

a. Students will research a topic of their choosing for their final paper.

b. Students will conduct an archaeology trash group project and present their findings to the class using visual aids.

c. Students will also participate in class discussions that require use of class concepts and their own ideas.
